

**REMARKS**

In view of the above amendments and the following remarks, reconsideration and withdrawal of the objections and rejections set forth in the Office Action of August 24, 2004 are earnestly solicited.

Claims 1—12 have been canceled, and Claim 13—18 have been added, leaving Claims 13—18 pending in the application.

The specification has been amended at Paragraphs 16, 18 and 21—23 to correct inadvertent errors.

Drawing Figures 1—6 have been replaced by new Figures 1—6 submitted herewith to correct inadvertent errors therein.

The objections to the specification are believed to be overcome by the amendments thereto.

The objections and rejections of Claim 1—12 are believed to be mooted by the cancellation of Claims 1—12.

Newly submitted independent Claim 13 is believed allowable over the art of record, none which teaches, claims or suggests Applicants' invertible load platform with integral legs on one side thereof.

Claims 13—18 are therefore believed to be in condition for allowance, early acknowledgment of which is requested.

Respectfully submitted,

Dated: November 23, 2004 By: \_\_\_\_\_
